KOSTER NURSERY - SPRING 1946

Dear Customer:

During World War II it was necessary to curtail our propagation and consequently this spring we are unable to supply any lining out stock.

In the summer of 1945 we started to rebuild our stocks and since then have started 35,000 grafted plants, 230,000 plants from cuttings and a few million seedlings.

By fall 1946 we will have limited quantities of lining out stock for our customers and expect to have almost a complete line of the items for which we are well known by the fall of 1947.

We plan to issue a list in August 1946 of the items available for fall 1946 delivery.

Yours sincerely,

KOSTER NURSERY
